Subject: RE: Gold King Mine GeoPlatform Map Updated

Just made a new update to the Gold King Map. This update includes:

•□□□□□□□ Added Gold King Operations Public that has Release location, Incident Command Post and River Mile Markers,

•□□□□□□□ Also added SADIE/Gold_King_Mine_Blowout_null_2015Aug15

•□□□□□□□ Moved NHD above other layers for better visibility

It appears that some services were turned off overnight including:

GoldKing_Operations_ResidentialWellSampling/MapServer

Per Cheryl's question, I have not found a SADIE group on the R9 ER Cloud, but there is one on the R8 server. As they produce new services on it I will continue to add them.

Just checking that you're looking at the content in the SADIE group for R9 rather than R8 because I only see data for R8. Also, not sure you can do this but if possible would look better with the NHD river on top of the Navajo res.

Subject: Gold King Mine GeoPlatform Map Updated

I have updated the GeoPlatform Map for the Gold King Mine.

It contains the following updates

Last Updated:

8/14/2015-Added NHD, Added Residential Well Sampling, Added SADIE Data for Aug12, Aug14, Aug14, Added book marks for communities

In addition, I have added the above update information to the description of the web map in the GeoPlatform.

Have a good weekend!
